

## **Soca Solutions Ltd - Carbon Footprint Policy**

**Introduction:** At Soca Solutions Ltd, we recognize our responsibility to reduce our environmental impact and are committed to minimizing our carbon footprint.

**Purpose:** This document outlines our approach to measuring, reducing, and offsetting our carbon emissions.

**Measuring Our Carbon Footprint:** We calculate our carbon footprint by tracking our energy consumption, business travel, and waste production.

### **Reduction Initiatives:**

- Energy Efficiency: Upgrading to LED lighting and smart thermostats.
- Renewable Energy: Powering our offices with 100% renewable energy.
- Sustainable Transportation: Encouraging public transport and cycling.

**Carbon Offsetting:** We invest in reforestation projects and renewable energy to offset our emissions.

**Tracking Progress:** Our efforts are documented in our annual sustainability report and verified by third-party audits.

**Future Commitments:** We aim to become a carbon-neutral company by 2030.

**Stakeholder Engagement:** We involve our employees, customers, and partners in our sustainability initiatives.
